Craig,

I'm so sorry you have to go through this. Unfortunately we all have been victims of this as well. We are all still trying to figure out how he got our personal cell phone numbers. You do not have to answer any question from him at all. I will also file this email in the file we created for his harassing calls.

Thanks Robin. It's the personal cell thin g that bothers me. I'm just discovering that he's called 10 times today.....which is creepy.

I am sorry. On the positive side, you are in good company!! Most people *in the know* understand that he is crazy. Having been the object of his writing and ranting, I know it's not fun. Hang in there and if you want to speak, feel free to give me a call.

I am so sorry. This guy, as you know, is nuts. I've forwarded to Shari.

I just received threatening phone call on my personal cell phone from Steven Greer.

I immediately informed him that all media inquiries had to go through Robin's office. He said he was calling as a resident. He asked to have an unofficial conversation or meeting. He asked about our website with program information, which I gave him as I was having trouble ending the conversation. I then asked if he would go through Robin and not call my personal phone, to which he started screaming threatening my f'ing job. I hung up. He immediately called back, and keeps calling back, from a blocked number.

Again, please advise.

Craig
